## **DETAILED ACTION**

### ***Summary***

1. This is the response to the communication filed on 11/05/2009.
2. Claims 1-4, 6-9, 11-12 and 16 remain pending in the application.
3. The application is in condition for allowance.

### ***Allowable Subject Matter***

4. Claims 1-4, 6-9, 11-12 and 16 are allowed.
5. The following is an examiner's statement of reasons for allowance:

With respect to claim 1, which is amended to include the limitations of claims 5 and 10, the prior art is silent regarding an analytical tool that include an island portion with a control edge for the express purpose of preventing the reagent solution to form the reagent portion from spreading more than necessary in the movement direction as disclosed by current application (page 10 lines 5-26, page 14 lines 9-27 of the originally filed specification). Moreover, the prior art is silent regarding any island portions included in an analytical tool that resemble the claimed island portion of current application. Therefore, the prior art does not disclose nor render obvious all the limitations of claim 1 with particular attention to the island portion for preventing the reagent solution from spreading more than necessary in the movement direction of the sample as disclosed by current application.

Claims 2-4, 6-9 and 11-12 are allowed as dependents of claim 1.

With respect to claim 16, which is amended to include the limitations of claims 1, 5 and 13-14, Sato is silent regarding each of the paired openings includes a narrow portion positioned relatively upstream in the movement direction and a wide portion positioned downstream from the narrow portion; in fact, Sato only discloses each of the paired openings includes a channel with uniform width. Furthermore, one skilled in the art would not have found it obvious to modify the channel of each of the paired openings to include a narrow portion upstream from the wide portion because such modification would restrict the sample flowing into the respective channel of each of the paired openings. Therefore, the prior art does not disclose nor render obvious all the limitations of claim 16 with particular attention to the limitation regarding each of the additional openings includes a narrow portion positioned relatively upstream in the movement direction and a wide portion positioned downstream from the narrow portion as required by current application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
